

Gas Processing Plants

- **SWEETENING**
- **DEHYDRATION**
- **HYDROCARBON LIQUID RECOVERY**

Many turnkey projects have been completed with Maloney providing the process, mechanical and instrumentation design, and supervision of field installation for plants of all types.

Designing and packaging modularized units for oil and gas production and processing has been Maloney's specialty for many years.

Processes include:

- Amine sweetening
- Dry desiccant dehydration
- Mole sieve sweetening/dehydration
- Refrigeration dewpoint control
- Liquid recovery and conditioning
